Western Psychological and Counseling Services

Youth Guidance Association

Was there a specific course (or courses) you considered more valuable than others?

- * I really thought that speaker class was amazing!! We were introduced to people in our community (both Oregon and Washington) that personally helped me with my career goals! / I also thought that all labs, and the group class was very relevant and prepared us for working with clients in different settings.
- * boundaries training, ethics, motivational interviewing, interviewing skills!! All classes about diagnosis and treatment, INTERNSHIP
- * Group counseling and the one involving abnormal psychology, and also human development

- * interviewing skills, phychpharm, personality disorders, becoming a helper
- * The interviewing skills class, where we were recorded, were the most helpful.
- * I am in a Social Work program at Concordia University in Portland and most of the classes offered for the Mental Health and Human Services Program are so similar to the ones I am taking at a "higher level" that I feel like I am taking the same courses all over again! I am very impressed with the level of education I received through this program.

Are there any specific topics or subjects that the MHHS program did not cover?

- * The culturally alert counseling was a little lacking. The cultural examples we learned were somewhat stereotyped and out of context. Maybe going more in depth about various cultures, the dynamics or respect, and privilege associated with being a part of dominate cultures. I feel that the program did too little for fostering self awareness within the context of our own social status regarding gender, race, sexual orientation, socioeconomic class, etc.
- * We had a class that specifically focused on cultures. We had a speaker for the "LGBT" community come in, but most of the time the speakers were there they were answering silly questions and their time was wasted. I felt the class needed this education and they missed out on it because of one or two especially ignorant people on the subject wasted all their time. We never had any assignments or anything else to correspond with the speakers. After that day in class I heard many ignorant comments and also very hateful/offensive ones and it was clear that no one had learned anything. I could tell further education was necessary. But because our "LGBT Day" was over, we never went over the subject again and it was forgotten about.
- * I would recommend a strong emphasis on APA format for all papers.
- * Case notes and case management was not what I needed. I did not get the information needed to be work ready in my opinion.
- * more education involving the ASAM assessment
- * I think that it could possibly add a topic dealing with incarceration and jail culture. Many clients either have experience with the court system or have family members who do.
