Business Administration & Management: Question 1

Was there a specific course (or courses) you considered more valuable than others?

- * I personally use the skills that I learned in the Accounting series with Professor DeWolf, and the Small Business Development/Management courses led by Professor Konrad on a day-to-day basis. I credit them with my continued interest in the business field
- * BA226 / EC 201, 202
- * Accounting 210-213
- * No I felt like all the classes taught me equally valuable concepts.
- * I believe you have top notch teachers there at Mt. Hood you could tell they actually cared about teaching us instead of just pushing us through a couple of great examples who helped me tremendously were Andy Wong, Dave Garlington and Stephen Konrad especially they rock!
- * I think philosophy was the most important class I took. I know it is not a class I needed to take but it did help me with learning how to get through thought processes and not to take anything just at a first glance.
- * accounting / Personal finance
- * BA-101
- * The business classes that actually allow you to start your business plan was helpful.
- * Management and Supervisory Fundamentals / Leadership / Operations Management
- * Business, accounting
- * The accounting series of courses were the most valuable. The numerous human resources classes were also helpful.
- * Accounting and writing classes
- * Leadership with Andy Wong
- * Microsoft excel training, accounting 1 & 2, statistics 1 & 2.
- * Business Computing. I think it was BA 131. Anything that teaches more common computer skills is INVALUABLE in the work force and in later education.
- * The Payroll Accounting classes were very helpful as this is my favorite part of accounting. Personal Finance was a great course and should be a requirement in all degrees. My leadership class taught me a lot even if I don't consider myself a leader. The class itself was great with hands-on group examples and videos relating to the subject. Being that I did my schooling after working in the field most of the classes were not new information to me. There were a lot of challenging classes on the list, however. Cost accounting was one of them. Hats off to the wonderful teacher who showed us how to make it through the homework.
- * Accounting and economics
- * No
- * I think that all of the courses I have taken have been very helpful.
- * BA 111 Public speaking. BA 211, 212, 213, BA 205
- * the accounting classes were great I use that information every day
- * I received an Accounting Degree so any classes relating to this subject were excellent. Other classes such as health etc did not relate to my career and was a waste of my money.
- * BA150, BA238 were both very useful, along with the leadership course offered and human resources.
- * Valuable: BA 211-213, QuickBooks class, Payroll, Cost Accounting, Tax Fundamentals (should be in person since Tax is extensive) and would help to see teacher go through it in front of us). / Not as valuable: Marketing (just easy read on your own material and shouldn't be in person), Small business class (for me since I wasn't planning on doing a small business, though see why necessary since we are likely to work for a small business), Leadership class
- * Harry DeWolf Accounting course is top notch! Best classes I ever had. /

Business Administration & Management: Question 2

Are there any new tools, applications or standards the program should address?

- * Please try to standardize the use of the Blackboard or other online learning programs. Each teacher uses the materials differently, and it can be hard to keep track of how each professor sets up their online learning portal.
- * Microsoft word/excel/power point.
- * More computer skills. Microsoft Suite. Typing. Keyboard Shortcuts. Basic Understanding of how Computers Work.
- * None that come to mind.
- * Yeah, teachers that teach how to actually do accounting instead of here is the answers to the whole book figure it out
- * none
- * I think that accounting should cover how to use certain applications like quick books or similar.
- * More time with quick books
- * Outlook! More in depth courses on Quickbooks, the one credit intro to Quickbooks did not teach nearly enough about the program to use in an employment situation.
- * Not that I can think of.
- * Make statistics a required class as it is needed to transfer to another facility
- * No
- * Not that i can think of at the moment.
- * I think you should not make some of the courses depend on passing tests to succeed or fail in a class testing is important but knowing what to take out of the class is a lot more valuable in the end some students a lot i noticed have strong test anxiety so they focus so hard on passing the tests they miss the skills they should have focused on instead.
- * Personal Finance should be a required course
- * how to use Quickbook
- * A full Excel class, not just a bit class. It is a requirement listed for every position I have applied for. / An office management class (of sorts) would be a good requirement in order to teach organizational skills.
- * More advanced course in QuickBooks instead of an outside source like SBDC so that it can be included in tuition. Outlook is another course that could be offered as I find it on a lot of job sites as a requirement.
- * More QuickBooks! Only one term, really?! and half the time we established a new company which hardly comes up since the companies already have Quickbooks accounts. Wish we did more check register input, general ledger and reconciling of fake companies. The class did establish A/R and A/P glad for that.
