# Natural Resources Technology

## List of Employers

All Seasons Property Management

Arborist/ Tree Service

Ash Creek Forest Management LLP

Audubon Society of Portland

Black Bear Diner

City of Portland - City Nature West

City of Portland, Bureau of Environmental Services

Columbia land trust

I am working part time for Whole Foods and hoping to return to the USFS in the summer of 2014.

Madrone Modern Arboriculture

mcmenamins

Mr. Black Pedals

Oregon Department of Forestry

Oregon induction company

Oregon State Parks

Oxbow Regional Park

Retail

service industry part-time. I am still taking classes full time to finish my undergrad.

Starbucks

The Port of Portland

Toys R Us

Two Feathers, LLC

U.S. Forest Service

US Geological Survey

USDA Forest Service, Mt. Hood National Forest, Clackamas River Ranger District

Washington Fish & Game

Natural Resources Technology: Question 1

Are there new tools, applications, or standards that the NRT Program should address?

- \* Nothing I can think of at the moment
  - \* Oregon Department of Forestry no longer uses old Notice of Operation form. Update to current online system.
  - \* Not sure on this question if there is new technology in this field and if there is I am not aware of it to have my input useful. But I would love to see more Arcgis and loggerPC though because I enjoyed those two programs.
  - \* N/a
- \* No
  - \* So far in obtaining my bachelor's degree I have not used any tools or equipment that I have not used at MHCC. I think the program does an excellent job at staying on top of the most current technologies and tools for this field.
  - \* I feel the program is diverse and gave me enough skills to perform as a field technician.

# Natural Resources Technology: Question 2

## Is there anything else you would like to communicate with NRT Instructors?

- \* Keep doing what you're doing!
- \* The NRT program has helped me so much in obtaining a job and understanding the concepts related to it. My time at MHCC has prepared me far more than my time at OSU. I would recommend it to anyone wanting to do natural resources.
- \* Over all the program was great I loved the instructions and miss my corky classmates alot. The only input I have is maybe drop the 2yr spring term parks class reasons being it seemed pretty useless I wasn't interested over all I felt like it was a waste of time to go to the classes were let's go to a park and look around. The other thing that I would of liked changed was the watershed I understood most of the learnings but the class seemed to be all over the place not really structured looking back I hardly remember much of what that class taught me. The last thing but it's not too much of a big deal for all the classes I like to pick my own groups. It sucks getting stuck with someone who doesn't want to put effort into the projects but I understand why it's done there's always going to be difficulties in the workforce so this just prepares us.
- \* Easy to get lost or behind due to the in depth work required in every class seemingly at the same time.

- \* No
- \* They do a great job, make the learning fun and interactive, and make sure everyone is on the same page and understanding the courses and technologies and information that is being provided! KEEP UP THE GREAT WORK INSTRUCTORS!!!!
- \* The curriculum is well thought; each class has purpose towards a job in forest technology.
