**Was there a specific course (or courses) that you considered more valuable than others?**

\* Emergency Response Planning

\* All the regulatory courses were of more value to me now that I work in the field.

\* IH, chemistry, and toxicology

\* chem 100-223, Environmental Chemistry (chem 170), OSHA 20 hour general industry training, Environmental Regulation 1&2, Introduction course to RCRA

**Are there any new tools, applications, or standards the SHS Program should be teaching?**

\* Dr. Mohtasham needs to work with Kerry Cooley and contact the American Society of Safety Engineers Columbia-Willamette Chapter for funding to aid in purchasing Hazardous Material Protection suits for HAZWOPER certification. Grant money is available for this purpose this year. Contact Corinna Kupelwieser at 503-720-2509

\* We should have more equipment that we can practice with (such as respirators, and other PPE to get familiar using).

\* The core classes should include conflict management and public speaking.

\* n/a

**Are there specific topics or subjects that the SHS Program did not cover (or provided too little detail) that would have been useful/beneficial in your current job/cont. education?**

\* I would recommend having a second industrial hygiene class (very relevant to the field)
