Business Administration & Management: Question 1

Was there a specific course (or courses) you considered more valuable than others?

- * The Business Management classes that I took with Dave Garlington (I cannot remember the specific title of the classes) and the Sales class I took my last term were the two most valuable classes I took and gave me valuable skills that I am currently using in my job and will be able to use when I start my own small business.
- * Accounting classes should be offered all terms
- * My accounting courses were extremely valuable (BA211, BA212, BA213, BA215), the material was challenging at times but the course information was well worth the effort to learn the material. Also BA220, BA177 and BA271 were very helpful in understanding other aspects of the accounting field and financial statements.
- * BA 101 intro to business
- * Yes, personally accounting was the most valuable classes.
- * I'm an accounting major, so the accounting courses were the most beneficial to me. However the pre reqs do help, learning about excel, word-helps you in the future. I have one class where every assignment must be turned in using excel.
- * BA211, BA212, BA213, BA177
- * I greatly enjoyed Mr. Wong and Mr. Garlington's classes! The teachers were very knowledgeable in the subjects they taught, and took the time to make sure we all understood as well!
- * I don't really use the information on a daily basis but it would still be the beginning accounting courses with Amber Lamadrid.
- * Accounting business management courses
- * I considered CIS 120 a pretty valuable class
- * BA101, WR227, BA205, BA211, BA212, BA213, SP111, EC201, EC202
- * Leadership, CSI courses, and management
- * Intro to Business. Very helpful in being successful business wise, financially and credit wise.
- * Sales. I regularly use the skills I obtained in the sales class, in both my work and personal relationships. The information was extremely useful for anyone seeking a leadership role in the business world.
- * I think the GS classes were the most valuable. They break science down better than high school science classes.
- * Speech 101 was very helpful for me. When the class started I was terrified of speaking in front of groups of people. This class taught me that the more prepared you are (for anything really) the less anxiety you will have. By the end of the class, I could give a presentation in front of a large group of people and actually be understood! I gained the confidence to speak to unfamiliar people, which is a helpful thing when you have a job that requires you to be outgoing and friendly.
- * BA 205 (Business Communications) with Brenda Houchen
ACTG 212 with Amber Lamadrid
- * Recently I am spending time with my family I am not working right now.
- * Personal finance
Business communication
International business
Technology of business ...
- *
* Ba211
Ba212
Ba213
- * No courses were particularly valuable.
- * I found business, ethics, math and accounting more valuable.
- * BA250-W1
Small Business Management
BA206-H1
Management and Supervisory Fundamentals
- * BA131 was helpful. And EC201 and EC202.
- * N.a.
- * Accounting was valuable, as well as BA 101.

Business Administration & Management: Question 2

Are there any new tools, applications or standards the program should address?

- * The microsoft word, excel, access etc. classes I took gave me an extension of my current skills which has helped me greatly in my current position. I am very grateful for the knowledge I have obtained.
- * I feel that the small business management courses should include end of year information for businesses. In my current job as a full charge bookkeeper I am preparing for the end of the year and am learning new things such as who to issue 1099's as well as limitations of business tax write-offs.
- * I think more attention should be drawn to crisis management, I have seen in my current job that managers have to deal with argumentative and willful employees. This situation was somewhat covered but I believe that more in depth coverage of this situation would be helpful to future students.
- * Perhaps better prepare Accounting students transferring to a 4-year institution for the immediate Fall recruiting events that begin in the summer.
- * Personally I wish there was more operations management knowledge taught. That has been the hardest course I've taken so far, and there really isn't any class that teaches you much about that.
- * I think that MHCC program have all of the basic tools .
- * I don't really feel as though I took much from the economics and accounting programs (classes). Maybe more time to cover said subjects or different teaching style.
- * I don't have any suggestions but truly wish MHCC would offer bachelor's degree in accounting because the teachers are amazing.
- * More integration of technology used in business.
- * I think there should have been more hands on work. I feel like classes like marketing should have involved more getting out and dealing with society, I believe social media could have been touched on more too.
- * N.a.
- * More website material would be helpful. The off-site business office in Gresham would be a great avenue for students and I wish I would have known about them a lot sooner.
- * Organizational behavior
- * Information systems besides QuickBooks
- * The online courses were extremely helpful!
- * No
- * Typing Online business tools and technology
- * A strong teaching in excel should be incorporated. The 6 week QuickBooks class should have been longer and the teacher was terrible and only taught for 5 weeks because she planned a trip to Disneyland and pulled a surprise exam.
- * More excel/quickbooks
- * The program should include only information we will use later in life. It would also be nice if each concept was related to real-life scenarios to show the importance.
- * No
- * Quickbooks
- * N/A
- * More Microsoft office especially excel.
