- * All courses were very helpful.
- * N/A
- * BA131, BA211, BA212, BA210ZEB
- * I found the accounting courses to be extremely helpful since I found work in the accounting department of a credit union.
- * Business Communication and Accounting
- * I preferred the online courses. More should be offered.
- * I think that the human resources course and the work flow analysis course were valuable.
- * BA 101 was helpful because this class covered the basics and many important terminology of Business Administration.
- * The business classes were really helpful and informative. I don't feel like humanities classes that don't pertain to your degree should be required. It's a waste of people's time and money.
- * International Business. Leadership and communication.
- * All the classes i took with Harry Dewolf were great. He is amazing. I learned so much from him.
- * Ones that taught how to deal with other individuals. Management and Human Resources.
- * I usually did better with hybrid or in-person classes, so as a result I learned more from those. I haven't had the opportunity to put my knowledge to to routine use, but I do have the framework so I can practice it when needed.
- * The accounting courses where the most valuable.
- * Leadership and Human Relations (BA285)☒
- * BA 211 and BA 301 with Dewolf and Wong were great foundational courses I took. They were caring and passionate about business which was very helpful.
- * I felt like I learned a tramendous amount in Business Communication with Andy Wong and there were m a few others that stood out as well, but I canâ€™t remember off the top of my head at the moment.
- * BA226 and courses about accounting
- * Accounting courses
- * Business computer applications
- * All accounting classes I have taken had the best teachers with the best content that helped me the most
- * Ba211☒
- * I enjoyed the economics classes. Two different teaching styles from each teacher but both effective in keeping students engaged.

Business Administration & Management: Question 2

Are there any new tools, applications or standards the program should address?

* I think overall the program touch on all the points it needed to go through but some things could be tweaked and definitely should add more hands on projects.

* N/A

* N/A

* Updated management styles for today's market, which is a much leaner corporate structure.

* N/A

* Marketing and finance should be broadly taught

* N/A

* It would be helpful if each student in one of the business classes could actually talk and create a business and try to run it for a term while using concepts learned in class.

* Practical hands on projects that deal with real world information. Work-study internship projects.

* Stop using mcgraw hill. The website is garbage as a teaching tool. Cengage is way better.

* N/A

* No

* It was good but mostly was easy to skate past need to be harder and that way retention would be higher as far as education. More focus on practical application of business opposed to teaching term and definitions

* I'm sure there's always room for improvement but I can't remember off the top of my head.
