Natural Resources Technology: Question 1

Are there new tools, applications, or standards that the NRT Program should address?

- * Verbal judo
- * Data is often being collected now with tablets and also using them to navigate with GPS to backcountry plots/sites. It would also be great if getting your Wilderness First Responder could be included in the program as it is a requirement to apply for wilderness ranger positions with NPS, USFS and BLM, also it's just good knowledge to have working out in the field.
- * Continued focus on gis is a critical part of modern forestry practices and will continue to become more relevant. The integration of tablet technology into forestry is also something that needs to be added to the curriculum because of the expanded use of them in the natural resources field.
- * I would like to see a class on invasive species.
- * The one thing that the NRT program could focus more on are the permanent jobs that can be worked with the 2 year degree. There are jobs that are more of a technical job that doesn't require more than 2 years of schooling that provide good support for ad
- * Maybe have any other class that teaches you about resource advisory on wildfires?not sure what else the program covers alot of stuff in different areas of natural resources
- * I think the program is in need of equipment that is newer and more relevant to the industry.
- * Nope
- * Curriculum for the Forestry Program far exceeds the job duties required as a temporary forest technician, and I cannot wait to apply more of the skills I leaned at school in my new work environment. I cannot think of anything that stuck me as a new conce
- * Two Trails v2 software used by the forest service.Unit Layout.How to set up and administer a timber sale.

Natural Resources Technology: Question 2

Is there anything else you would like to communicate with NRT Instructors?

- * No, all the instructors were really helpful with anything we needed
- * The instructor were awesome! I talk about this program to anyone who is interested in the natural resources field.
- * I really enjoyed my experience. Larger vehicles would be helpful when taking long trips.
- * Thank you so much for the experience and the knowledge.
- * The instructors do great work in the NRT program. They have many connections in the industry and are ready to help students get their names out there. They offer support and one on one time to ensure that all the students meet their goals and are successf
- * Great program, however the harvesting class was lacking. It needed more info on how to set up timber sales, sale administration, unit layout, and logging systems planning. Too many mill field trips, which while fun, are completely irrelevant to a forestry
- * Thank you for teaching such a vaulable program! I had a great time getting my degree with you guys and have been applying my knowledge to my now third seasonal position with the Forest Service. - * Maybe include more tips on how to interact with the public, public speaking, conflict resolution.
- * I think the program should integrate more wildlife classes into the curriculum and see how they could be better transferable to four year universities.
- * Teachers like you change the world!
- * Joan DeYoung is the best teacher you will ever have. I consider her a family member. Jason Pinkerton is always a delight, making class very easy to pay attention to. Wally, though strict, has taught very good points, and has very good projects to help u
