## Cosmetology: Question 1

### Was there a specific course (or courses) you considered more valuable than others?

- \* Hair design- In hair design the 2 main courses that helped me the most was hair cutting and Color class .This provided me the tools/knowledge to practice my skills in Cosmetology. Esthetics- for Esthetics the most valuable class would be the first Facia
- \* All courses were used and are used in my line of work.
- \* Every term of the Cosmetology program was packed with so much knowledge, I could not pick just one term that sticks out more than others
- \* I loved that I left with a degree it's helped with finding a job in my career. I was hired right after college.
- \* All the courses dealing with hands on skills in cosmetology were the most beneficial to me. I learn best using my hands and actually doing the work I am trying to learn that way my muscles know what to do and my mind is able to grasp the concept better.
- \* Our hands on lessons in haircutting, color class with the "pygmy head", and learning skin care as well as nail/hand and foot care.
- \* Honestly having guest speakers come in and teach us useful skills and things that would help us later on an industry for the most vital parts of the program

**Are there any new tools, applications, or standards the program should be teaching?**

- \* Hair design- for hair I would of liked to learn more on the technique of Balayage, Ombré, and root smudges which is a popular trend right now. Also I would of liked to have more formal styling classes. Nails I would of liked more nail art classes.
- \* All the basics were covered well.
- \* I will admit that I do wish the program would have taught more in the nail technology aspect, but I am very happy with the education I received
- \* No they covered everything!
- \* I felt that the cosmetology department was very up to date in everything they were teaching.
- \* Wide variety of mannequin heads with different hair textures and lengths to work with, color correction mannequin head to work on and get great independent, hands-on experience with hair color. 15 foils in 5 minutes, 25 minute perm wraps, hand mannequins
- \* Honestly the whole system needs to be re-invented as it is extremely broken and leads to a lot of failure and drop outs

**Are there topics or subjects the program did not cover (or provided too little detail)?**

- \* Formal styling classes such as weddings or prom hair styles. More cutting techniques on asymmetrical hairstyles or more pixie hairstyles. Also I would of like to see more guest speakers come in to teach because they were very helpful.
- \* How does one prepare for tax season?
- \* See above comment
- \* No

- \* I would spend more time on mens cuts. That was something I felt ill prepared for going out into the real world. Although I got a job in mens cuts right out of school and learned very fast. I would of felt a little more comfortable with more training in th
- \* Money management and how to be a successful independent contractor.
- \* Product education and how to sell would be most helpful as well with general interacting with our clients
